Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 13 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sandahl et al., U. S. Patent 3,494,405 in view of Mortellito, U. S. Patent 2,865,124 and Raphael et al., U. S. Patent 5,181,284.

Sandahl et al. teaches a flexible screen 31 mounted on a frame 10 with support members 21 and 22. The screen has a top sleeve 32, bottom sleeve 33, and lateral sleeves 34 and 35 mounted on the top 11, bottom 12, and vertical side members 13 and 14, respectively. Sandahl does not teach the frame comprising vertical side members with space apertures adapted to receive the horizontal top and bottom members. In addition, Sandahl does not teach the frame having suction cup support members.

Mortellito teaches a frame comprising a pair of vertical side members with space apertures and a pair of top and bottom horizontal member adapted to be receive within the space apertures of the side members.

Raphael et al. teaches a plastic suction cup 28 threadably connected to a post 26, wherein a suction cup 28 includes a screw 35 extending through the top portion of the suction cup into the.

It would have been obvious to one having ordinary skill in the art at the time this invention was made to support the flexible screen taught by Sandahl et al. on the frame taught by Mortellito to provide a means to securing retain the screen on a collapsible frame. In addition, it would have been obvious to one having ordinary skill in the art at the time this invention was made substitute the support members of the frame taught by Sandahl with the suction cut support member as taught by Raphael to provide a means to securely attach the frame to a support surface.

Response to Arguments

2. Applicant's arguments with respect to claim 13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
